

MADE IN AUSTRALIA

CENTRAL STATION MONITORING

4G MEDICAL ALERT CONTROLLER

The St John Medical Alarm is an ultra-capable Australian Made and Australian Standards compliant 4G medical alert controller supporting central station monitoring.

The large backlit Help and Cancel keys are conveniently positioned for easy operation or press the help button on up to 8 pendant transmitters which use TWR spread spectrum technology for reliable operation.

The powerful Two-Way Voice Call feature allows you to open a voice channel following a help alert and talk back with hands-free operation for the user.

Supports up to eight St John Two Way Radio waterproof pendants which can be worn on the wrist or on a chain.

The unit is pre-programmed and set up for self-installation.

Includes a SIM card.
